PACIFIC RIDGE EXPLORATION LTD.
(The "Company")

Interim Financial Statements
(An Exploration Stage Company)

For the Six Months Ended June 30, 2008
(Unaudited and Expressed in Canadian Dollars)

Notice of No Auditor Review of Interim Financial Statements

Under National Instrument 51-102, Part 4, subsection 4.3(3) (a), if an auditor has not performed a review of the interim financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of the financial statements

1. Nature of Operations

Pacific Ridge Exploration Ltd. (the "Company") is in the business of acquiring, exploring and developing mineral properties. The Company has not yet determined whether its properties contain ore reserves that are economically recoverable. All of the Company's mineral property interests are currently located in Canada. The recoverability of the amounts shown for resource assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties, and upon future profitable production or proceeds from the disposition of the properties.

As at June 30, 2008, the Company had working capital of $1,165,413 ($1,664,270 - December 31, 2007; $2,396,997 unrestricted – June 30, 2007). Management of the Company believes that it has sufficient funds to pay its ongoing administrative expenses and to meet its liabilities for the ensuring year as they fall due.

The Company's ability to continue its operations is dependent on its ability to secure additional financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. In order to continue developing the Company's mineral properties, management is actively pursuing such additional sources of financing.

2. Summary of Significant Accounting Policy Changes

The accompanying unaudited financial statements have been prepared in accordance with Canadian generally accepted accounting principles on a basis consistent with those outlined in the Company's audited financial statements for the year ended December 31, 2007 except as described below. These notes do not include all of the information and disclosures required by Canadian generally accepted accounting principles ("Canadian GAAP") for audited financial statements. These interim financial statements should be read in conjunction with the most recent annual audited financial statements of the Company.

The CICA has issued two new standards that may affect the financial disclosures and results of operations of the Company for interim and annual periods beginning January 1, 2008.

Section 3862 and 3863 describe the required disclosures related to the significance of financial instruments on the Company's financial position and performance and the nature and extent of risks arising for financial instruments to which the Company is exposed and how the entity manages those risks. The company adopted the requirements of this standard effective January 1, 2008.

Section 1535 establishes standards for disclosing information about a company's capital and how it is managed to enable users of financial statements to evaluate the company's objectives, policies and procedures for managing capital. The Company adopted the requirements of this standard effective January 1, 2008.

(Unaudited and expressed in Canadian dollars)

2. Summary of Significant Accounting Policy Changes (Continued)

International Financial Reporting Standards ("IFRS")

In 2006, the Canadian Accounting Standards Board ("AcSB") published a new strategic plan that will significantly affect financial reporting requirements for Canadian companies. The AcSB strategic plan outlines the convergence of Canadian GAAP with IFRS over an expected five year transitional period. In February 2008, the AcSB announced that 2011 is the changeover date for publicly-listed companies to use IFRS, replacing Canada's own GAAP. The date is for interim and annual financial statements relating to fiscal years beginning on or after January 1, 2011. The transaction date of January 1, 2011 will require the restatement for comparative purposes of amounts reported by the Company for the year ended December 31, 2010. While the Company has begun assessing the adoption of IFRS for 2011, the financial reporting impact of the transition to IFRS cannot be reasonably estimated at this time.

3. Resource assets

	Mineral property acquisition expenditures ($)	Deferred exploration expenditures ($)	June 30, 2008 Total ($)
Baker Uranium	510,293	6,389,632	6,899,925
Fyre Lake	1	200	201

			7,037,593

(Unaudited and expressed in Canadian dollars)

3. Resource assets (Continued)

	Mineral property acquisition expenditures ($)	Deferred exploration expenditures ($)	December 31, 2007 Total ($)
Fyre Lake	1	-	1
Spectrum	1	-	1
Baker Uranium	510,293	6,200,551	6,710,844
	510,295	6,200,551	6,710,846
Reclamation deposits			19,058
			6,729,904

4. Capital stock

1) Common share: unlimited common shares without par value.

During the six months ended June 30, 2008, the Company issued 200,000 common shares for the Phos property located in the Fernie area of southeastern British Columbia for value of $36,000.

As of June 30, 2008, 77,940,939 common shares were issued and outstanding (December 31, 2007: 77,740,939).

2) Stock options

As at June 30, 2008, common shares under option are as follows:

Number of shares outstanding	Number of shares exerciseable	Exercise price $	Expiry date
200,000	150,000	0.26	March 28, 2009
200,000	150,000	0.30	April 10, 2009
1,900,000	1,900,000	0.11	September 17, 2009
800,000	800,000	0.32	March 23, 2011
1,050,000	525,000	0.26	March 28, 2012
4,150,000	3,525,000	0.19	

(Unaudited and expressed in Canadian dollars)

4. Capital stock (Continued)

2) Stock options (Continued)

The Company has a stock option plan (the "Plan") authorizing the granting of stock options to qualified optionees to purchase up to a total of up to 10% of the then issued and outstanding common shares of the Company. Under the terms of the Plan, the options are subject to vesting provisions, and the term of stock options granted may not exceed five years from the date of grant. The Company applies the fair value method of accounting for stock options and, accordingly, the fair value of stock options of $65,368 (2007 - $196,093) has been included in administrative expenses and $9,875 (2007 - $30,439) in exploration and mineral property expenses.

The fair value of options granted was estimated at the grant date based on the Black-Scholes option-pricing model, using the following assumptions:

	2007 (1)
Risk-free interest rate	4.25%
Expected share price volatility	98% to 132%
Expected option life in years	2-5 years
Expected dividend yield	Nil

(1) No stock options were granted during the period January 1 to June 30, 2008.

3) Warrants

Warrants outstanding are as follows:

Number of warrants	Number of shares issuable on exercise of warrants	Weighted average exercise price $	Expiry date
200,000	200,000	0.24	August 1, 2008
2,985,000	2,985,000	0.40	December 22, 2008
778,050	778,050	0.35	December 22, 2008
515,000	515,000	0.40	December 26, 2008
4,478,050	4,478,050	0.38	

5. Related party transactions

The Company had the following related party transactions during the six months ended June 30, 2008:

a. $17,935 (2007 - $Nil) paid to a consulting firm of which a director and officer is the principal for administration and management services. In connection with these services, $4,620 was due by the Company at June 30, 2008.

b. $41,139 (2007 - $Nil) paid to a company of which an officer is the principal for professional geological services. In connection with these services, $8,962 was due by the Company at June 30, 2008.

6. Future income tax

Under the provisions of CICA EIC 46, in respect of flow-through shares, a future income tax liability must be recognized, and shareholders' equity reduced, on the date that the Company renounces the tax credits associated with flow-through expenditures, provided that there is reasonable assurance that the expenditures will be made. As the Company has unrecognized future tax assets and the taxable temporary differences relating to the flow-through shares are expected to reverse during the loss carryforward period, there tax assets can be applied against the future taxable temporary difference. The recognition of the benefits resulted in a future income tax recovery of $783,370 (2007 - $505,700).

7. Subsequent events

a) The Company announced a proposed non-brokered private placement in July 2008. The Company agreed to sell up to 2,000,000 Flow-Through shares at a price of $0.20 per share for gross proceeds of up to $400,000. On August 8, 2008, the Company closed the first tranche of the non-brokered private placement on receipt of gross proceed of $205,000 and issued 1,025,000 flow-through shares. Finders' fees totaling $3,900 are payable in respect of the first tranche closing, and the shares issued are subject to hold periods expiring December 9, 2008.
b) 2,000,000 shares were issued in connection with the Baker Lake Uranium property, for value of $240,000.
