Pacific Ridge Exploration Ltd.
(An Exploration Stage Company)
Notes to Condensed Interim Financial Statements June 30, 2015
(Unaudited - Expressed in Canadian Dollars)

1. Nature of operations and going concern

Pacific Ridge Exploration Ltd. (the "Company" or "Pacific Ridge") is in the business of acquiring and exploring resource properties in Canada. The Company is incorporated and domiciled in Canada under the *Business Corporations Act* (British Columbia). Its registered office is located at 1710 – 1177 West Hastings Street, Vancouver, British Columbia, Canada, V6E 2L3.

The Company has not yet determined whether its properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for resource properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary capital to finance the operations and contribution from future joint venture partners.

These financial statements are prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As at June 30, 2015, the Company had an accumulated deficit of \$44,965,331 (December 31, 2014 - \$45,346,298) and working capital of \$648,332 (December 31, 2014 - \$153,203).

On June 17, 2015, the Company received \$610,001 (US\$500,000) from Sandstorm Gold Inc. ("Sandstorm") in consideration for the sale of a selected package of mineral royalties, as explained in Note 4. The Company intends to use the current working capital to fund its plan of operation. Completion of the acquisition, exploration and development of the Company's resource properties is dependent on the ability to obtain the necessary on going financing. While the Company has been successful in raising sufficient funding in the past, there can be no assurance it will be able to do so in the future. These conditions give rise to a material uncertainty which casts significant doubt on the Company's ability to continue as a going concern and, therefore, its ability to realize its assets and discharge its liabilities in the normal course of business.

These financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate. Such adjustments could be material.

2. Basis of presentation and changes to accounting policies

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. These condensed interim financial statements do not include all of the information required for full annual financial statements and they should be read in conjunction with the audited annual financial statements for the year ended December 31, 2014 and the notes thereto.

The significant accounting policies used in the preparation of these condensed interim financial statements are consistent with those used in the preparation of the Company's annual financial statements ended December 31, 2014.

Except for available for sale investments, which are recorded at fair value, these financial statements have been prepared on a historical cost basis and are presented in Canadian dollars, the Company's functional currency.

The Company has interests in mineral properties in Yukon, Canada. On June 17, 2015, the Company received a payment of \$610,001 (US\$500,000) from Sandstorm in consideration for the sale of a selected package of mineral royalties. This royalty package included US\$400,000 for a 1.65% net smelter return ("NSR") held by the Company on the Spectrum gold property located in British Columbia, and a 1% NSR on the Company's Eureka Dome and Gold Cap properties. As part of the package, the Company has transferred to Sandstorm its right to buy-down royalties on its Mariposa and Sophie properties. Proceeds received from the sale are first credited against the carrying value, if any, of the properties, with any difference recorded as a gain or loss on sale. The US\$400,000 received for the Spectrum property is recorded as a gain.

d) Fyre lake massive sulphide property, Yukon

The Company owns a 100% interest in the Fyre Lake property which was acquired by claim staking.

In July 2014, the Company entered into an option agreement with MinQuest Limited for the Fyre Lake property. Pursuant to the terms of the agreement, MinQuest can earn an initial 51% interest in the property by paying \$650,000 (\$50,000 paid), issuing shares with a value of \$650,000 to the Company (\$50,000 issued), and completing a minimum of \$3,500,000 in exploration over three years. Upon earning a 51% interest in the property, MinQuest will then have the option to increase its interest to 70% by completing an additional \$3,000,000 in exploration expenditures by January 10, 2018. Should MinQuest earn a 70% interest, the Company will have the option of retaining a 30% participating joint venture interest or reducing to a 20% interest, carried through to a feasibility study.

The \$100,000 option payment, consisting of \$50,000 cash and \$50,000 of MinQuest shares, was credited against the \$70,591 carrying amount of Fyre Lake with the excess of \$29,409 recorded in loss for the year ended December 31, 2014.
